

C-STAR SINGLE FAMILY RENTAL FUND III

C-STAR SFR ADVISORS MOVES AHEAD OF INSTITUTIONAL CAPITAL –

Firm was founded in 2018 by seeing the opportunity that single-family rental(SFR) homes can produce an attractive yield in the world of no yield and have great growth potential, while this asset type is not institutionalized because individual asset size is very small. We found a gap between institutions seeking yield and few sizable SFR property portfolios for institutional buyers. By assembling and stabilizing the SFR portfolio, we can achieve an attractive portfolio premium on top of appreciation from market growth. We believe the current environment will provide exceptional, once-in-a-cycle real estate investment opportunities.
